

Gridplex Digital Services & Consulting

Qualifying Assignment – Agentic AI Internship

This is your assignment to qualify for the teleconference round.

The Task

- Take this YouTube video: <https://www.youtube.com/watch?v=0FUFewGHLLg>
- Create a summary teaser video (2–3 mins, landscape format).
- The teaser must be created by identifying the most important snippets, cutting them, and merging them together.

What We’re Testing

- Your ability to programmatically implement the entire process with minimal human intervention (use any programming language you prefer).
- Your ability to leverage existing tools effectively.
- Your skill in breaking down the task into smaller solvable chunks and assembling them into a complete solution.
- Important: Your ability to work with LLMs (any of your choice).
- Important: Your ability to work with a terminal.
- Important: Your ability to figure out what this problem entails – using any means necessary.
- Your ability to figure out a mechanism to decide which snippets are the most important to include.
- Bonus: Ability to work with Linux.

What We’re Not Testing

- How polished or fancy your video editing looks.
- A 100% perfect, production-ready solution.

What to Submit

Respond to this email with the following:

1. A GitHub repo link with your implementation.
2. A Google Drive link to your demo video (access must not be private).
3. A PDF write-up (1–2 pages) explaining your approach.

Deadline

120 hours from the time you receive this email.

If you have clarifying questions, ask your LLM, friends, seniors, cousins, or the Internet. There will be no response from us.

This is open book, open Internet, open whatever.

Welcome to the real world of problem-solving.

Your curiosity and ability to learn by yourself are your greatest assets.

Best Regards,
Aniket Pingley, Ph.D.
